Circularity Rap (the 4 R's)

We'd like to make the world a place That's fear

and carbon free

With conscious thought to change our ways

And live sustainably!

We'd like to have a global goal

Unilaterally agree

To pledge solutions across the world

Yo Circularity!

We'd like to change the way we think
To mirror Earth's great coup
Relect on ecosystems, natures way
Of saying 'Close that loop'!

We want to live within Earth's bounds
And be exploitation free
Respect our planet, be happy with less
A whole lot healthier way to be!

Keep it cool
Keep it green
Make that change
Emissions clean
Make it last
Design it well
Or Earth's resources
Say farewell
Fast fashion
Plastic waste
Climate changing
We must make haste

**Repeat the mantra
and follow the drill!
Reduce, reuse, recycle
Refill
Circularity is top of the bill!**

Consumerism

Fossil fuels

Food waste issues

Just not cool!

Natural products

Kind to nature

Thoughtful concepts

Add to stature

Restore our oceans

Earth's lungs at sea

Stop waters rising

Floods will cease!

Repeat the mantra

and follow the drill!

Reduce, reuse, recycle

Refill

Circularity is top of the bill!

Eco Friendly

Greta - led

Logistically speaking

On the right road ahead!

Oil coal and gas

Too carbon intensive

Cue the Hydrogen solar
and windfarm offensive!

Rainforests dying

Waterways choked

Desolate landscapes

Emotions are stoked

**Repeat the mantra
and follow the drill!**

Reduce, reuse, recycle

Refill

Circularity is top of the bill!
